The wire that is coloured blue must be connected to the terminal that is marked with the letter N or coloured black.

The wire that is coloured brown must be connected to the terminal that is marked with the letter L or coloured red.

As the colours of the wires in this lead may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows.

Do not connect any wires to the terminal in the plug that is marked with the letter E or by the earth symbol $\frac{1}{2}$ or coloured green or green-and-yellow.
